

## **Brundall New Boat Dock & Piled Foundations For New Property**

**March 2011 Private Client**

### **Main Contractor**

Our client contacted us requiring a new boat dock and piled foundations for a new property adjacent to their existing property. G T Rochester Plant Ltd. put our client in contact with a structural engineer for the design of the piles for the dock and bearing piles for the property. G T Rochester Plant Ltd. supplied all materials and installed the boat dock and piled foundations for the new property

Installed boat dock landing jetty and piled foundation for new property

Installing 7m M11 galvanised lite piles

Installing tie rod system into clients neighbouring property

Dredging out the new boat dock

Installed piled foundations for new property
